

Assessment & Application Period

WEEK 7																																
Dec 5						Dec 6						Dec 7				Dec 8						Dec 9						Sat	Sun			
Monday						Tuesday						Wed				Thursday						Friday										
402	403	407	408	423	404 CL	402	403	407	408	423	404 CL	CEDL	402	423	402	403	407	408	423	422	404 CL	CEDL	402	403	407	408	423	404 CL	CEDL			
9.00 - 9:30	Comp Chemistry and Materials Modelling		Robotics	History and Philosophy of Science	Material Structure Characterization Methods	Energy Systems (Physics) & Technology	Imaging in Biology / Koltzov Institute of Developmental Biology (Vavilova 26 Str.)	Comp Chemistry and Materials Modelling	History and Philosophy of Science	Robotics	Numerical Linear Algebra		Photonics Review																			
9:30 - 10:00																																
10.00 - 10:30																																
10.30 - 11:00																																
11.00 - 11:30																																
11.30 - 12:00																																
12.00 - 12:30																																
12.30 - 1:00	Mathematical Modeling in Biology	Introduction to Solid State Physics		Advanced Solid State Physics		Petrophysics and Reservoir Engineering		Mathematical Modeling in Biology	Introduction to Solid State Physics	Advanced Solid State Physics																						
1.00 - 1:30																																
1.30 - 2:00																																
2.00 - 2:30																																
2.30 - 3:00																																
3.00 - 3:30																																
3.30 - 4:00																																
4.00 - 4:30	Convex Opt. for Data Science	Structural Analysis and Design																														
4.30 - 5:00																																
5.00 - 5:30																																
5.30 - 6:00																																
6.00 - 6:30																																
6.30 - 7:00																																
7.00 - 7:30																																
7.30 - 8:00																																
Independent studies																																

WEEK 8																																	
Dec 12						Dec 13						Dec 14				Dec 15						Dec 16						Sat	Sun				
Monday						Tuesday						Wed				Thursday						Friday											
402	403	407	408	423	404 CL	402	403	407	408	423	404 CL	CEDL	403	422	423	402	403	407	408	423	422	404 CL	CEDL	402	403	407	408	148	404 CL	CEDL	422		
9.00 - 9:30	Comp Chemistry and Materials Modelling	Energy Systems (Physics) & Technology	Robotics	History and Philosophy of Science		Comp Chemistry and Materials Modelling	History and Philosophy of Science	Robotics	Numerical Linear Algebra	Photonics Review																							
9:30 - 10:00																																	
10.00 - 10:30																																	
10.30 - 11:00																																	
11.00 - 11:30																																	
11.30 - 12:00																																	
12.00 - 12:30																																	
12.30 - 1:00																																	
1.00 - 1:30																																	
1.30 - 2:00																																	
2.00 - 2:30																																	
2.30 - 3:00																																	
3.00 - 3:30																																	
3.30 - 4:00																																	
4.00 - 4:30	Convex Opt. for Data Science	Structural Analysis and Design	Methods of Enhanced Oil Recovery																														
4.30 - 5:00																																	
5.00 - 5:30																																	
5.30 - 6:00																																	
6.00 - 6:30																																	
6.30 - 7:00																																	
7.00 - 7:30																																	
7.30 - 8:00																																	
Independent studies																																	

Modern Convex Optimization				
	Wed, Dec 21	Thu, Dec 22	Mon, Dec 26	Tue, Dec 27
	403	403	403	403
10.00-12.00	Lecture	Lecture	Lecture	Lecture
13:00-15:00	Seminar	Seminar	Seminar	Seminar
