

COURSE SCHEDULE: Term 4 (27 Mar – 26 May, 2017) - Academic Year 2016-2017

WEEK 1																																					
Mar 27							Mar 28							Mar 29							Mar 30							Mar 31							Sat	Sun	
Monday							Tuesday							Wed							Thursday							Friday									
402	403	407	408	423	404	CEDL	402	403	407	408	423	404	421	CEDL	IGB	MSU	402	403	404	423	402	403	407	408	423	404	CEDL	MSU	402	403	407	408	423	404	CEDL		
Carbon Nanomaterials	Geometrical Methods of ML	Deep Learning	Bayesian Methods of Machine Learning	Thermal Fluid Sciences	Geomatics*		RNA Biology	Quantum Fluids	CSE II: Discretization	Bayesian Methods of Machine Learning	Thermal Fluid Sciences	Geomatics	MIPT DDP: Scientific Seminar	Space Data Processing	Basic Molecular Biology Techniques / Advanced Molecular Biology Techniques	Cell Biology Lab Course	Smart Grids	English for Thesis	Geomatics	Space Data Processing	Carbon Nanomaterials	Smart Grids	CSE II: Discretization	Bayesian Methods of Machine Learning	Geomatics				Smart Grids	Geometrical Methods of ML	RNA Biology		Geomatics		Space Data Processing	Independent studies	Independent studies
Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	High-Dimensional Statistical Methods	CSE II: Discretization				Electrochemistry: Fundamentals to Applications		Introduction to PLM	Deep Learning	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	MIPT DDP: Methods of the theory of one-dimensional quantum systems	Systems Engineering			PhD Seminar: Selected Topics in Energy				Theoretical Foundations of Computer Science	Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	Introduction to PLM	Deep Learning		Advanced Bioinformatics Lab Course	Systems Engineering	Cell Biology Lab Course		Advanced Photonics Course	Introduction to PLM	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	Systems Engineering		
	Geostatistics and Reservoir Simulation	Stochastic Modeling and Computations			Geomatics		Energy Colloquium	Geostatistics and Reservoir Simulation	Composite Materials and Structures	Natural Language Modeling and Processing		Geomatics	MIPT DDP: Functional methods in the theory of disordered systems		Molecular Biology Seminar		Geostatistics and Reservoir Simulation		Geomatics		Skoltech Colloquium		High-Dimensional Statistical Methods	Composite Materials and Structures		Geomatics				Stochastic Modeling and Computations	Natural Language Modeling and Processing	Geomatics	Composite Materials and Structures				
<p style="color: red; text-align: center;">Geomatics* - Intensive 3-credit course planned for 1st week (Mar 27-31) and 7th week (May 15-19) of Term 4.</p>																																					

WEEK 2																																					
Apr 3							Apr 4							Apr 5							Apr 6							Apr 7							Sat	Sun	
Monday							Tuesday							Wed							Thursday							Friday									
402	403	407	408	423	404	CEDL	402	403	407	408	423	404	421	CEDL	IGB	MSU	402	403	404	423	402	403	407	408	423	404	CEDL	MSU	402	403	407	408	423	404	CEDL		
Carbon Nanomaterials		Deep Learning	Bayesian Methods of Machine Learning		Geometrical Methods of ML		RNA Biology		CSE II: Discretization	Bayesian Methods of Machine Learning			MIPT DDP: Scientific Seminar	Space Data Processing	Basic Molecular Biology Techniques / Advanced Molecular Biology Techniques	Cell Biology Lab Course	Smart Grids	English for Thesis		Space Data Processing	Carbon Nanomaterials	Smart Grids	CSE II: Discretization	Bayesian Methods of Machine Learning				Smart Grids		RNA Biology		Geometrical Methods of ML	Space Data Processing	Independent studies	Independent studies		
Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	High-Dimensional Statistical Methods	CSE II: Discretization			Systems Engineering	Electrochemistry: Fundamentals to Applications		Introduction to PLM	Deep Learning	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	MIPT DDP: Methods of the theory of one-dimensional quantum systems	Systems Engineering			PhD Seminar: Selected Topics in Energy				Theoretical Foundations of Computer Science	Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	Introduction to PLM	Deep Learning		Advanced Bioinformatics Lab Course	Cell Biology Lab Course		Advanced Photonics Course	Introduction to PLM	High-Dimensional Statistical Methods	Theoretical Foundations of Computer Science			Advanced Bioinformatics Lab Course	Systems Engineering
Comparative Genomics	Geostatistics and Reservoir Simulation	Stochastic Modeling and Computations	Natural Language Modeling and Processing				Energy Colloquium	Composite Materials and Structures	Natural Language Modeling and Processing		Geostatistics and Reservoir Simulation		MIPT DDP: Functional methods in the theory of disordered systems		Molecular Biology Seminar			ne		Skoltech Colloquium	Extra EDU Activity	High-Dimensional Statistical Methods	Composite Materials and Structures		Smart Grids				Stochastic Modeling and Computations	Natural Language Modeling and Processing	Composite Materials and Structures						

COURSE SCHEDULE: Term 4 (27 Mar – 26 May, 2017) - Academic Year 2016-2017

WEEK 3																																					
Apr 10							Apr 11							Apr 12							Apr 13							Apr 14						Sat	Sun		
Monday							Tuesday							Wed							Thursday							Friday									
402	403	407	408	423	404	CEDL	402	403	407	408	423	404	421	CEDL	IGB	MSU	402	403	404	423	402	403	407	408	423	404	CEDL	MSU	402	403	407	408	423	404	CEDL		
Carbon Nanomaterials		Deep Learning	Bayesian Methods of Machine Learning		Geometrical Methods of ML		RNA Biology		CSE II: Discretization	Bayesian Methods of Machine Learning			MIPT DDP: Scientific Seminar	Space Data Processing	Basic Molecular Biology Techniques / Advanced Molecular Biology Techniques	Cell Biology Lab Course	Smart Grids	English for Thesis			Space Data Processing	Carbon Nanomaterials	Smart Grids	CSE II: Discretization	Bayesian Methods of Machine Learning					Smart Grids		RNA Biology			Geometrical Methods of ML	Space Data Processing	
													MIPT DDP: Methods of the theory of one-dimensional quantum systems																								
Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	High-Dimensional Statistical Methods	CSE II: Discretization			Systems Engineering	Electrochemistry: Fundamentals to Applications		Introduction to PLM	Deep Learning	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	MIPT DDP: Functional methods in the theory of disordered systems	Systems Engineering	Basic Molecular Biology Techniques / Advanced Molecular Biology Techniques	Cell Biology Lab Course		PhD Seminar: Selected Topics in Energy			Theoretical Foundations of Computer Science	Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	Introduction to PLM	Deep Learning		Advanced Bioinformatics Lab Course		Cell Biology Lab Course		Advanced Photonics Course	Introduction to PLM	High-Dimensional Statistical Methods	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	Systems Engineering	
Comparative Genomics		Stochastic Modeling and Computations	Natural Language Modeling and Processing		Geostatistics and Reservoir Simulation		Energy Colloquium		Geostatistics and Reservoir Simulation	Composite Materials and Structures	Natural Language Modeling and Processing						Molecular Biology Seminar			Geostatistics and Reservoir Simulation			Skoltech Colloquium	Extra EDU Activity	High-Dimensional Statistical Methods	Composite Materials and Structures		Smart Grids						Stochastic Modeling and Computations	Natural Language Modeling and Processing	Composite Materials and Structures	

WEEK 4																																					
Apr 17							Apr 18							Apr 19							Apr 20							Apr 21						Sat	Sun		
Monday							Tuesday							Wed							Thursday							Friday									
402	403	407	408	423	404	CEDL	402	403	407	408	423	404	421	CEDL	IGB	MSU	402	403	404	423	402	403	407	408	423	404	CEDL	MSU	402	403	407	408	423	404	CEDL		
Carbon Nanomaterials		Deep Learning	Bayesian Methods of Machine Learning		Geometrical Methods of ML		RNA Biology		CSE II: Discretization	Bayesian Methods of Machine Learning			MIPT DDP: Scientific Seminar	Space Data Processing	Basic Molecular Biology Techniques / Advanced Molecular Biology Techniques	Cell Biology Lab Course	Smart Grids	English for Thesis			Space Data Processing	Carbon Nanomaterials	Smart Grids	CSE II: Discretization	Bayesian Methods of Machine Learning				Smart Grids		RNA Biology			Geometrical Methods of ML	Space Data Processing		
													MIPT DDP: Methods of the theory of one-dimensional quantum systems																								
Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	High-Dimensional Statistical Methods	CSE II: Discretization			Systems Engineering	Electrochemistry: Fundamentals to Applications		Introduction to PLM	Deep Learning	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	MIPT DDP: Functional methods in the theory of disordered systems	Systems Engineering	Basic Molecular Biology Techniques / Advanced Molecular Biology Techniques	Cell Biology Lab Course		PhD Seminar: Selected Topics in Energy			Theoretical Foundations of Computer Science	Electrochemistry: Fundamentals to Applications	Advanced Photonics Course	Introduction to PLM	Deep Learning		Advanced Bioinformatics Lab Course		Cell Biology Lab Course		Advanced Photonics Course	Introduction to PLM	High-Dimensional Statistical Methods	Theoretical Foundations of Computer Science	Advanced Bioinformatics Lab Course	Systems Engineering	
Comparative Genomics	Geostatistics and Reservoir Simulation	Stochastic Modeling and Computations	Natural Language Modeling and Processing				Energy Colloquium		Geostatistics and Reservoir Simulation	Composite Materials and Structures	Natural Language Modeling and Processing						Molecular Biology Seminar			Geostatistics and Reservoir Simulation			Skoltech Colloquium	Extra EDU Activity	High-Dimensional Statistical Methods	Composite Materials and Structures		Smart Grids	Geostatistics and Reservoir Simulation								

COURSE SCHEDULE: Term 4 (27 Mar – 26 May, 2017) - Academic Year 2016-2017

	WEEK 5																															Sat	Sun																																						
	Apr 24							Apr 25							Apr 26							Apr 27							Apr 28																																										
	Monday							Tuesday							Wed							Thursday							Friday																																										
	402	403	407	408	423	404	CEDL	402	403	407	408	423	404	421	CEDL	IGB	MSU	402	403	404	423	402	403	407	408	423	404	CEDL	MSU	402	403			407	408	423	404	CEDL																																	
9.00 - 9:30	Carbon Nanomaterials			Bayesian Methods of Machine Learning																	Carbon Nanomaterials	Smart Grids	CSE II: Discretization	Bayesian Methods of Machine Learning				Systems Engineering			Smart Grids			RNA Biology	Deep Learning		Geometrical Methods of ML	Space Data Processing																																	
9:30 - 10:00			Deep Learning				Apr 25-26 Skoltech - MIT Conference																																																																
10.00 - 10:30																																																																							
10.30-11:00																																																																							
11.00-11:30																																																																							
11.30-12:00																																																																							
12.00-12:30																																																																							
12.30 - 1:00																																																																							
1.00 - 1:30																																																																							
1.30 - 2:00																																																																							
2.00 - 2:30																																																																							
2.30 - 3:00																																																																							
3.00 - 3:30																																																																							
3.30 - 4:00																																																																							
4.00 - 4:30	Comparative Genomics	Geostatistics and Reservoir Simulation	Stochastic Modeling and Computations	Natural Language Modeling and Processing																																																																			
4.30 - 5:00																																																																							
5.00 - 5:30																																																																							
5.30 - 6:00																																																																							
6.00 - 6:30																																																																							
6.30 - 7:00																																																																							
7.00 - 7:30																																																																							
7.30 - 8:00																																																																							

	WEEK 6																															Sat	Sun																																						
	May 8							May 9							May 10							May 11							May 12																																										
	Monday							Tuesday							Wed							Thursday							Friday																																										
	402	403	407	408	423	404	CEDL	402	403	407	408	423	404	421	CEDL	IGB	MSU	402	403	404	423	402	403	407	408	423	404	CEDL	MSU	402	403			407	408	423	404	CEDL																																	
9.00 - 9:30																																																																							
9:30 - 10:00	May 1-9 Public Holidays																																																																						
10.00 - 10:30																																																																							
10.30-11:00																																																																							
11.00-11:30																																																																							
11.30-12:00																																																																							
12.00-12:30																																																																							
12.30 - 1:00																																																																							
1.00 - 1:30																																																																							
1.30 - 2:00																																																																							
2.00 - 2:30																																																																							
2.30 - 3:00																																																																							
3.00 - 3:30																																																																							
3.30 - 4:00																																																																							
4.00 - 4:30																																																																							
4.30 - 5:00																																																																							
5.00 - 5:30																																																																							
5.30 - 6:00																																																																							
6.00 - 6:30																																																																							
6.30 - 7:00																																																																							
7.00 - 7:30																																																																							
7.30 - 8:00
